PRODUCT RANGE

WALK-IN CHAMBERS

CME Walkin/Drive chambers are designed to test comparatively large test specimen. These chambers are assembled and integrated on-site with options of remote refrigeration units, conditioning units and control panels. Optional models available with Rain Simulation, UV/Solar/IR Simulation

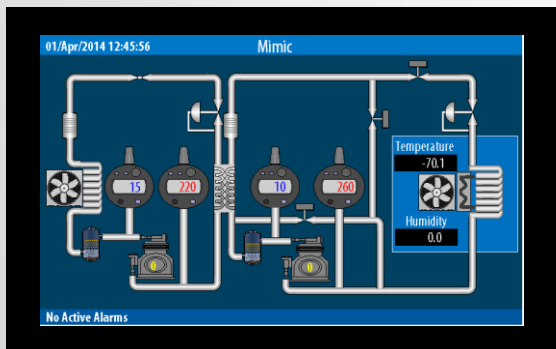

Remote Refrigeration: Refrigeration units can be placed away from the main chamber and are mounted on heavy duty chassis.

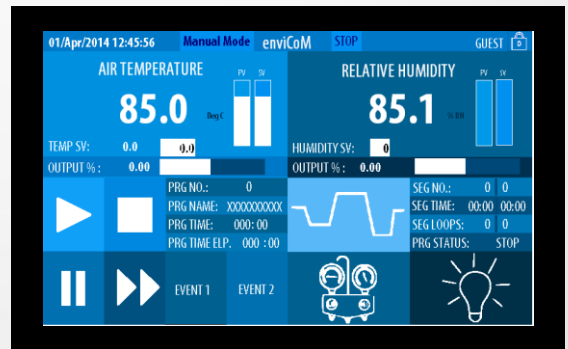

Remote Control Panels: The control panel housing the electrical switchgear and the operating interface enviCoM are available as independent stand alone units. These units can also be placed at a remote location.

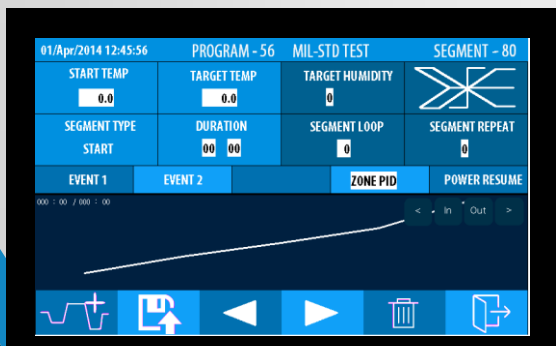

Envicom™ Graphite Controller
