

Tire Engineering

Tire characterisation

Tire model development (depending on specifications)

Product definition

Tire measurement (force & moment)
Tire characterisation (architecture and rubber compound)
Tire performance analysis
Tire modeling based on physical knowledge of tire internal functioning
Model adapted to customer needs

Strengths

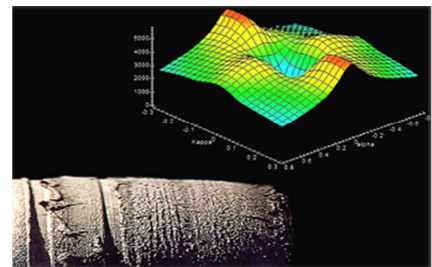

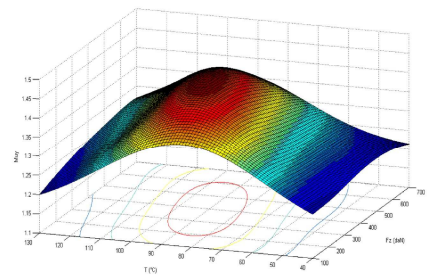

Better knowledge of tire
Best tire efficiency and design
Analysis methods on cutting edge of technology
Save time in car development

Basics

High accuracy model
Analysis of tire functioning point
Tire knowledge transfer

Our customers

Racing teams, tire manufacturer, vehicle manufacturer
Testing center, vehicle dynamic company (all company which are testing tires)
Automotive supplier

Unique engineering tire knowledge and service
Analysis methods and knowledge on cutting edge of technology
