

VICON VERO

Vero

Ready set mocap

Vicon Vero
Power. Flexibility. Performance.

Vero is suitable for a wide range of applications in small to medium sized volumes.

- Ergonomics
- Training
- Injury prevention
- Synthetic environments
- Static facial capture
- Immersive reality
- Virtual prototyping
- Simulation
- Visualization
- Animation
- Gait analysis
- Sports biomechanics
- Animal studies
- Rehabilitation
- Virtual camera tracking

Power

With the best resolution/speed/price offering on the market, Vicon Vero is the latest optical camera from Vicon. Building on the success of Vantage, Vero combines market leading resolution and speed at a unrivalled price point. Like its bigger brother, Vantage, Vero has on-board sensors that monitor camera position and temperature to ensure optimal performance at all times. Utilising the latest – algorithms for the highest data fidelity and controllable through our Vicon Control mobile app, Vero is mocap power in a palm-sized package.

Flexibility

Vero's compact design means it is easy to mount; its custom made variable focus lens gives you optimised field of view and it's powerful strobe sees further. Vero is simple to set up and use; connect the cable and start capturing.

Performance

Vero's performance belies its form factor. With an industry leading 2.2 MPX @ 330 FPS, Vero can capture both fast sport movements and multiple actors with very low latency. On-board sensors measure system performance so you know you are always getting the best out of your Vicon system. Vero is also available in a 1.3 MPX@ 250 FPS version at our most competitive price performance offering.

Compatibility

Are you an existing T-series, Bonita or Vantage customer looking to add more? Vero is compatible with all of these cameras and the Vicon Vue video camera.
